

Weekly Progress Report

Name: Hari Krishnan V

Domain: PYTHON INTERN

Date of submission:14-03-25

Week Ending: 04

I. Overview:

This week, the primary focus was on practicing python programs manually and improving problem-solving skills. I utilized online learning platforms such as GeeksforGeeks and W3Schools to reinforce my understanding of core programming concepts. Additionally, I participated in quizzes and tests on UPSKILL, which helped assess my progress and strengthen my conceptual clarity.

II. Achievement:

- Practical python programming exercises on GeeksforGeeks and W3Schools to enhance coding.
- Learned about different programming approaches by solving multiple problems manually.
- Successively submitted quizzes and tests on UPSKILL. which helped evaluate my knowledge.

III. Challenges:

- Faced difficulties in solving some advanced problems, requiring additional research.
- Encountered minor syntax errors and logical mistakes while coding, which needed debug.
- Initially struggled with time management while taking quizzes but gradually improve with practice.

IV. Learning Resources:

- UPSkill was helped to complete quizzes and tests to access.
- Used platforms like GeeksforGeeks, W3Schools, for practicing examples.

V. Next Week's Goals:

- Continue practicing python programs with a focus on algorithmic problem-solving.
- Begin working on small projects to apply my knowledge practically.

- Improve debugging skills by solving more hands-on coding challenges.

VI. Additional Comments:

This week was productive as I strengthened my python fundamentals through hands-on practice. The quizzes and tests on upskill helped identify areas that needed improvement. Moving forward, I aim to focus on applying my learning to real-world problems and small-scale projects.
